Oxford IBD MasterClass 2018
New horizons: medical and surgical innovations in IBD
in conjunction with the ACPGBI

Tuesday 11 Sep 2018
08:30 Welcome

Pathogenesis Explained
08:40 Bugs in the gut: do they cause IBD?
09:05 Strictures and fistulae: how do they form?
09:30 Wound healing: the influence of steroids and biological therapy
09:55 Very Early Onset IBD: a new taxonomy

10:20 Coffee

Medical Matters
10:50 Can medical treatment reduce the long term need for surgery?
11:15 Pouches behaving badly: what do you do?
11:40 Medicine or surgery for ileocaecal Crohn’s disease?
12:05 Novel therapy for IBD: what’s here and what’s coming?

12:30 Lunch

Technical Treats
14:00 Kono-S anastomosis: does it reduce the risk of relapse?
14:20 Bots and bottoms: TaTME and pouch surgery
14:45 Classifying perianal fistulae in Crohn’s disease
15:10 Improving the quality of surgery in IBD

15:30 Tea

What to do when things go wrong
16:00 Anastomotic leak: prevention and management
16:25 Management of enterocutaneous fistulae and intestinal failure
16:50 Refractory distal colitis

The Truelove Lecture 2018
17:15 New surgical techniques in the art of IBD surgery
18:00 Close
18:30 Reception and dinner
Wednesday 12 Sep 2018
08:30 Workshops: select a choice of two, change over between 09:15-09:20

1. Management of high output stomas
   Phil Allan/Lisa Vokes (Oxford)
2. Chemoprevention in IBD
   Emma Culver (Oxford)
3. Kock pouches: how and when
   Richard Guy (Oxford)
4. To anastomose or defunction? That is the question
   Bruce George (Oxford)
5. Realtime data collection in IBD: European and US experience
   Alissa Walsh (Oxford)
6. Bariatric surgery in people with IBD
   Bruno Sgromo (Oxford)
7. Therapeutic endoscopy in IBD: putting surgeons out of business
   James East (Oxford)
8. Post-operative maintenance therapy
   Satish Keshav (Oxford)
9. Setons: which, what and when?
   Kim Gorissen (Oxford)
10. Managing the challenge of psychological co-morbidity in IBD
    Luke Solomons (Oxford)

Or
Endpoints and outcomes in IBD clinical trials
(for Industry partners, 08:30-10:00)

Vip Jairath (Canada)

10:00 Coffee

Dysplasia and cancer

10:30 Neoplasia in IBD: where does it start?
   Simon Leedham (Oxford)
10:55 Cancer in the defunctioned rectum and perianal fistulae
   Laurent Beaugerie (Paris)
11:15 Surveillance strategies
   Matt Rutter (Teeside)

Difficult dilemmas

11:35 Timing of colectomy in acute severe colitis
   Oliver Brain (Oxford)
12:00 Fitness for surgery: how do you know?
   John Griffiths (Oxford)
12:25 Radical mesenteric resection: is the mesentery the neglected organ?
   Calvin Coffey (Limerick)
12:55 Closing remarks
   Paul Klenerman (Oxford)

13:00 Buffet lunch
