

Oxford IBD MasterClass 2018
New horizons: medical and surgical innovations in IBD
in conjunction with the ACPGBI

Tuesday 11 Sep 2018

08:30 Welcome

University Examination Schools
Simon Travis

Pathogenesis Explained

08:40 Bugs in the gut: do they cause IBD?

09:05 Strictures and fistulae: how do they form?

09:30 Wound healing: the influence of steroids and biological therapy

09:55 Very Early Onset IBD: a new taxonomy

Jack Satsangi/Simon Leedham

Vineet Ahuja (New Delhi)

Ronan O'Connell (Dublin)

Malcolm Dunlop (Edinburgh)

Holm Uhlig (Oxford)

10:20 *Coffee*

Medical Matters

10:50 Can medical treatment reduce the long term need for surgery?

11:15 Pouches behaving badly: what do you do?

11:40 Medicine or surgery for ileocaecal Crohn's disease?

12:05 Novel therapy for IBD: what's here and what's coming?

Alissa Walsh/ Holm Uhlig

Krisztina Gecse (Amsterdam)

Paolo Gionchetti (Bologna)

Alissa Walsh (Oxford)

Subrata Ghosh (Birmingham)

12:30 *Lunch*

Technical Treats

14:00 Kono-S anastomosis: does it reduce the risk of relapse?

14:20 Bots and bottoms: TaTME and pouch surgery

14:45 Classifying perianal fistulae in Crohn's disease

15:10 Improving the quality of surgery in IBD

Bruce George/ Rebecca Palmer

Steve Brown (Sheffield)

Janindra Warusavitarne (London)

Nicola Fearnhead (Cambridge)

Omar Faiz (London)

15:30 *Tea*

What to do when things go wrong

16:00 Anastomotic leak: prevention and management

16:25 Management of enterocutaneous fistulae and intestinal failure

16:50 Refractory distal colitis

Richard Guy / Oliver Brain

Bruce George (Oxford)

Simon Lal (Manchester)

James Lindsay (London)

The Truelove Lecture 2018

17:15 New surgical techniques in the art of IBD surgery

18:00 Close

18:30 *Reception and dinner*

Paul Klenerman/Simon Travis

Andre D'Hoore (Leuven)

Balliol College

Wednesday 12 Sep 2018

08:30 Workshops: select a choice of two, change over between 09:15-09:20

- | | |
|---|---|
| <ol style="list-style-type: none"> 1. Management of high output stomas 2. Chemoprevention in IBD 3. Kock pouches: how and when 4. To anastomose or defunction? That is the question 5. Realtime data collection in IBD: European and US experience 6. Bariatric surgery in people with IBD 7. Therapeutic endoscopy in IBD: putting surgeons out of business 8. Post-operative maintenance therapy 9. Setons: which, what and when? 10. Managing the challenge of psychological co-morbidity in IBD | <p>Phil Allan/Lisa Vokes (Oxford)
Emma Culver (Oxford)
Richard Guy (Oxford)
Bruce George (Oxford)
Alissa Walsh (Oxford)
Bruno Sgromo (Oxford)
James East (Oxford)
Satish Keshav (Oxford)
Kim Gorissen (Oxford)
Luke Solomons (Oxford)</p> |
|---|---|

Or

Endpoints and outcomes in IBD clinical trials

(for Industry partners, 08:30-10:00)

Vip Jairath (Canada)

10:00 *Coffee*

Dysplasia and cancer

- 10:30 Neoplasia in IBD: where does it start?
10:55 Cancer in the defunctioned rectum and perianal fistulae
11:15 Surveillance strategies

James East /Alessandra Geremia

Simon Leedham (Oxford)
Laurent Beaugerie (Paris)
Matt Rutter (Teeside)

Difficult dilemmas

- 11:35 Timing of colectomy in acute severe colitis
12:00 Fitness for surgery: how do you know?
12:25 Radical mesenteric resection: is the mesentery the neglected organ?
12:55 Closing remarks

Satish Keshav/Kim Gorissen

Oliver Brain (Oxford)
John Griffiths (Oxford)
Calvin Coffey (Limerick)
Paul Klenerman (Oxford)
Examination Halls

13:00 *Buffet lunch*
